

Instructions for Use

Moisturising and Comfort Eye Drops (0.3% Hypromellose)

The Moisturising and comfort eye drops and sprays are intended for consumers who require an over-the-counter eye preparation to moisturise the eye and provide relief to uncomfortable eyes and is intended to provide supplemental moisture to the eye to provide comfort to dry, tired, irritated and/or strained eyes.

The moisturising and comfort eye drops are indicated for irritated, dry, tired and sensitive eyes that are uncomfortable due to occupational and environmental factors or irritations associated with allergies, dust, pollution and smoke.

- Uncomfortable eye symptoms can also be described by consumers as itchy, gritty, dry, burning, tearing, 'feeling like something is in your eye', needing to blink more frequently and / or sensitivity to light due to eye strain.
- Examples of occupational and environmental factors are computer use, driving, dry air / air conditioning, dusty environments and chlorinated water following swimming.

The product can be used by Adults (Children younger than 16 may use the product under supervision)

DESCRIPTION

The product is a clear solution, supplied in 10 ml /15 ml HDPE containers with a nozzle and cap .
